Kasia Nagorka

Creative Technologist / Fullstack Developer

SUMMARY

Creative Technologist combining fullstack development, 3D, and event production. Builds performant UI systems, interactive experiences, and real-time visuals. Comfortable moving from concept to production, with concrete delivery in real-world contexts.

CORE SKILLS

Web — Frontend
React, Next.js, Nuxt, Vue.js, TypeScript, HTML, CSS, SASS, Tailwind

Web — Backend
Node.js, PHP, Laravel, Django, MySQL, REST APIs, Authentication, CRUD, Deployment

3D / Creative Tech
Blender, 3D Modeling, Shading, Optimization, Real-time Assets, Three.js / React Three Fiber

Events / Production
Creative Direction, Production, Coordination, Scenography, Stakeholder Management, Timing

Cross-profile
Creative Development, Fullstack, 3D, Product UX, Design Systems, Storytelling

EXPERIENCE

2025–2026 — Developer | Urban Tech
Building production-ready applications for real client use cases.

Concrete work, not PowerPoint.

2023–2025 — Fullstack Web Dev Coach | Molengeek
Coaching, mentoring, and building web projects in real-life conditions.

Teaching + delivery: fewer surprises.

2023 — 3D / Modeling & Video Design | Tarmac
Creating 3D assets and video content focused on narrative and impact.

Visuals with a purpose.

2020–2023 — Visual Merchandiser | Pinko
Brand storytelling, boutique scenography, and product presentation.

Visuals in motion.

2021 — Event Project Lead / Art Director | Emotion
Visual identity, strategy, communication, and event experience.

Vision → execution → lived experience.

2018–2020 — Event Styling & Creative Direction | Bloody Louis
Scenography, production, visuals, and logistics.

When every detail matters (and timing is real).

2018–2020 — Visual Merchandiser | Swarovski
Luxury retail visuals, merchandising standards, and precision.

Luxury = rigor + rhythm.

2015–2018 — Visual Merchandiser | MMFG
Product staging, brand consistency, and customer experience.

Training the eye down to the millimeter.

EDUCATION

2023–2024 — Fullstack Development (Molengeek)
Strong foundation in modern web development.

2023 — 3D Modeling & Animation (Blender / Tuto.com)
Real-time assets and optimization.

2017 — Graphic Design (Domestika)
Visual culture, composition, and framing.

2018 — Styling (Reggio Emilia)
Understanding product, material, and intent.
